LINE-UP

Ricardo Quaresma
Vocals

Hélio Freitas
Drums

Marco Fernandes
Bass

David Rodrigues
Guitar

BACKLINE (PROVIDED BY THE BAND)

- 1x Neural DSP Quad Cortex — guitar (David)
- 1x bass head + cabinet (Marco)
- 1x full or partial drum kit (Hélio) — cymbals, pedal and snare always provided by the band; remaining backline subject to venue availability
- 1x Roland SPD-SX (drum triggers)
- 1x MicroKorg synthesizer
- 1x TC Helicon vocal pedal set
- 1x personal mixer (drummer — for in-ear monitoring)
- 1x audio interface (Presonus/Focusrite) — for backtracks and click
- Vocal microphones and 2x mic stands (if needed)

STAGE REQUIREMENTS

- Minimum stage area: 4m x 3m
- 4x power outlets (one per stage position)
- 2x guitar amps, only if the venue PA lacks the power for a direct Quad Cortex feed. We use the venue's amps if available; otherwise the band brings its own
- Carpet/mat for drum area

FOH CHANNELS

- 1x main vocals (XLR — from TC Helicon or direct mic)
- 2x guitar (Quad Cortex, L/R XLR outputs direct to the desk, or mics on the 2 guitar amps if used)
- 1x MicroKorg synthesizer (DI or line)
- 1x bass (DI from amp head)
- Drums — standard mic setup (kick, snare, overheads, minimum 4 channels)
- 1x Roland SPD-SX (line or DI)
- 1x stereo backtrack (2 channels from audio interface — FOH output)
- 1x secondary vocals / backing vocals — near drums

MONITORING

- 1x monitor wedge — vocalist (front center)
- 1x monitor wedge — guitarist (front left)
- 1x monitor wedge — bassist (front right)
- 1x aux send from FOH to drummer's personal mixer (for in-ear monitoring)

VIDEO / PROJECTION (OPTIONAL)

- If the venue has a projector, the band provides visual content synced with audio
- Required: 1x HDMI feed from band's computer to projector
- The computer is operated by the drummer and simultaneously controls video and audio backtracks

SOUND & LOGISTICS

- PA suitable for venue size
- Minimum 30-minute soundcheck before doors
- Load-in/load-out access near stage
- Water on stage (minimum 4 bottles)

STAGE PLOT
